RHINO TURN

ECO TURNING LINE

RHINO-TURN Upgrade Notification

KEY POINT

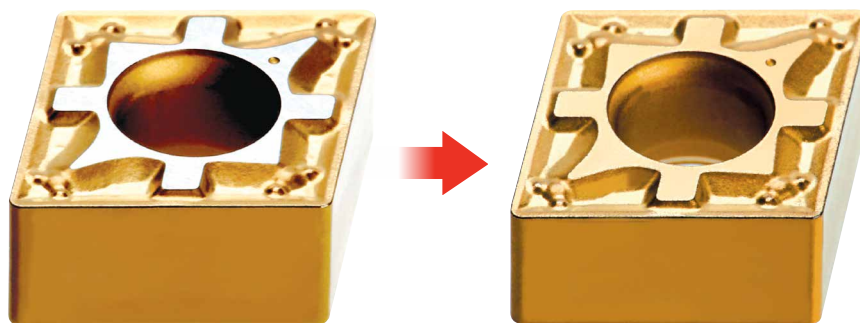

TaeguTec is pleased to announce a change to the RHINO-TURN line manufacturing process.

The **RHINO-TURN** line's inserts' manufacturing process has undergone a change that improves performance. The process for the coating and grinding of the insert's top and bottom surfaces has been changed from coating then grinding to grinding then coating.

The upgraded line will be available after the existing stock runs out.
For more information, please contact the product manager.
